WHO AM I?

A Geographer who decided to take a learning sabbatical to switch careers. I attended two bootcamps; Flatiron School for Ruby and General Assembly for JavaScript and React. I have a growth mindset and am looking forward to starting my career as a developer.

HIGHLIGHTED PROJECTS

treelife — *website for a local business*

Developed and implemented a small business website, managed email gateways and migrated all services to a new provider.

Weather — *weather app built using React*

A web app built with JavaScript and React. Displays a 5-day weather forecast for a zip code using OpenWeather API.

Movie Reviewer — *movie review app built with Ruby on Rails*

A Ruby on Rails web app that allows a user to login, search for movies, and review them.

WORK EXPERIENCE

Airbus — *Optical Tasking Engineer / Large Project Coordinator*

2012 - 2017 / Chantilly VA

Optimized satellite imagery collections for clients in the private business and government sectors. Provided full-cycle management of multi-million-dollar domestic and international technology projects. Delivered technical training to clients and coworkers.

Technology Associates International — *GIS Analyst III*

2011 - 2012 / Washington D.C.

A contractor for U.S. Department of Health and Human Services, I worked in the Secretary's Operation Center producing cartographic products using complex datasets to senior leadership, including the White House.
